Directions for Administration

Introduction

This manual contains directions and the specific scripts you will need to administer the Practice Test for the English Language Proficiency Assessments for California (ELPAC). It is a companion document to the online Practice Test.

The purpose of the ELPAC Practice Test is to familiarize students and test examiners* with the testing interface, item types, and accessibility resources as well as to provide students with the opportunity to practice a full-length test. The Practice Test provides grade-level content and contains the same number of questions that appear on the Summative ELPAC. There is an ELPAC Practice Test available for each grade level/span.

Please note that the Practice Test does not produce scores. The Practice Test is available all year and may be used at any time in preparation for the operational ELPAC tests.

The Practice Test can be administered in one of two ways:

- Using the same procedures as the operational tests, with the Test Administrator Interface, secure browser, and individual student logon information; or
- Using a standard supported web browser to access the Practice Test directly, without use of the Test Administrator Interface or secure browser.

For more information on all aspects of the ELPAC, including test security, item types, and guidelines, refer to the ELPAC Test Administration Manual on the Manuals, Instructions, and Quick Reference Guides page on the [ELPAC website](#).

Using the DFA

This DFA should be used to administer the Listening, Reading, and Writing domains. The Speaking DFA should be used to administer the Speaking domain.

This DFA contains scripts for administration. The following symbols indicate instructions for test examiners:

SAY	The test examiner reads the material out loud to the student.
i	Information for the test examiner

*A test examiner does not need to be present to use the ELPAC Practice Test; however, the term “test examiner” is used in this document to show what a test examiner will do to administer the test.

Directions for Administration (cont.)

Test Materials

Before testing begins, the test examiner should assemble the following materials:

- Printed or electronic copy of this DFA
- Electronic devices for the students (and, if applicable, test examiner) to access the test**
- Scratch paper for students to take notes
- Pencil and eraser for test examiner and students
- Headsets (if preferred)
- If logging on using the same procedures as the operational tests, each student's required logon information (statewide student identifier [SSID] and first name as listed in CALPADS/TOMS) or logon tickets containing each student's required logon information for group administration
- Copy of the Student Score Sheet (if preferred), which can be found at the end of this DFA

Administering the Test

Before Testing

Before administering the test, the test examiner must do the following:

- Make sure to have a copy of this DFA for use during test administration.
- Prepare testing devices and materials for students and examiners.
- Check the volume on the student's device prior to logon. After logon, the maximum volume cannot be increased.
- Select a quiet area to administer the test. Eliminate distractions (e.g., extraneous noises, windows, etc.).
- Read through the instructions that are specific to each domain (Listening, Reading, and Writing).
- If you are administering the Practice Test using the same procedures as the operational tests, confirm that the student has been assigned the correct test settings (designated supports and accommodations) in the Test Operations Management System (TOMS).
- If you are administering the Practice Test using a standard supported web browser without the use of the Test Administrator Interface or secure browser, apply the appropriate test settings (designated supports and accommodations) for the student in the Student Testing Interface for the Practice and Training Tests directly.

**A mobile device that would allow the test examiner to monitor student progress while walking around the room would be preferable.

Directions for Administration (cont.)

During Testing

- Greet the student and read the information from the administration script for that domain (i.e., Listening, Reading, or Writing).
- The student may not use books, cellular phones, or other reference materials during testing, though they may have scratch paper. Students' desks should be clear of all items except for the test materials provided by the test examiner.
- If headsets are desired, use a splitter to plug in one pair of student headphones and one pair of test examiner headphones so that the student and test examiner can listen to the test together.
- All directions may be repeated or replayed.
- The universal tools (e.g., zoom, line reader, etc.) introduced during test examiner training and described in California Assessment Accessibility Resources Matrix are available in the Student Interface for students who need them. The test examiner should monitor students during the test session and give reminders or recommendations to individual students as appropriate about the availability of universal tools.
- To minimize the risk of unforeseen usability issues, adjust sound and display settings using the resources in the test delivery system rather than those built into the student's device (e.g., zoom using the test delivery system, not the device's track pad or touch screen).
- Verify the student's test settings in the Test Administrator Interface.

Coaching and Guessing

- Do not show or suggest the correct answer to any question. If a student asks about a test question ("Is this right?" or "How do you spell _____?"), give a neutral response, such as "You choose the one you think is right and go on," or "Just spell it the best you know how."
- Do not coach the student. The test examiner should not provide assistance that will inadvertently indicate an answer.
- Encourage students to do their best on all sections of the assessment.

Other Concerns

- Discourage talking among students.
- Avoid any unusual interruptions, distractions, or loud noises that might affect the entire group.

Directions for Administration (cont.)

After Testing

The Practice Test may be scored after the student has completed testing. Student Score Sheets are provided in the Appendices by grade span. The test delivery system does not score the student answers. To score the students Listening and Reading test, have the student mark their answer on the Student Score Sheet while testing. Upon completion, the test examiner may score the answers using the Scoring Keys in the Appendix. The test examiner may then assist the student in reviewing practice test items answered incorrectly and provide instruction. To score the student's Writing test, the student can either write their response on paper or type into the test delivery system and then cut and paste into a word document. The test examiner may use the Writing rubrics and anchors to score the student response. The test examiner and student may then review the Writing response and provide instruction.

Special Directions for Listening

- The Listening portion of the ELPAC is self-directed. Students will work through the test questions independently.
- The Listening Test may be scored after the student has completed testing. Student Score Sheets are provided in the Appendices. The test delivery system does not score the student answers. To score a student's Listening test, have the student mark their answers on the Student Score Sheet while testing. Upon completion, the test examiner may score the answers using the Scoring Keys in the Appendix. The test examiner may then assist the student in reviewing practice test items answered incorrectly and provide instruction, if desired.
- If any student has a designated support that allows the playing of Listening recordings multiple times, speak with the student privately before the test begins and give a reminder like this: "On today's test you will listen to recordings and answer questions about them. The test directions will say the recordings can only be played once, but you will have the ability to replay them if you need to."
- Students may want to read through the questions that go with a recording before actually playing the recording. Once the recording starts to play, students should listen to the recording in its entirety without interruptions before navigating through the questions. Navigating away from the page by selecting a different tab on the page or selecting **[NEXT]** may cause the remainder of the recording to become unplayable.
- Reminder that students should not pause the recording once it has begun. Help guide students to understand the difference between pausing the audio file and pausing the test. Pausing the entire test will log the student out of the Listening portion.

First of all, there are lots of businesses and some students would have great experiences, but some of them wouldn't have those. So student with good companies will get benefits while others won't. Second some students already have after-school jobs and they would then be working two jobs. So I disagree with this descicion. It will not help all students.</p>

Some student may not be interested in the internship and I am one of them. I'm actually new to this country and I've been here for only nearly 4 months. I'm also new to the US school so I've zero experience about it. I don't even know any local company in general, and so are new students from different country.</p>

Because the students after school had problems and obligations in their houses. Not all the students are been able to work.</p>
