Subject: Correction: CAASPP and ELPAC: Current Updates to Supported Operating Systems and Browsers for 2020-21

Dear LEA CAASPP Coordinator, LEA ELPAC Coordinator, or Technology Coordinator:

This is a correction to the email sent on June 17, 2020. The original email stated that Windows 10 would not be supported after October 31, 2020. Windows 10 Build 1803 and below will no longer be supported. Builds after 1803 will continue to be supported.

Operating systems and browsers supported for 2020–2021 CAASPP and ELPAC online testing will be updated as of June 29, 2020. These technology requirements also will include the computer-based Initial ELPAC, which is available beginning August 20, 2020.

As of June 29, only the operating systems listed on the [Secure Browsers](#) web page are supported for testing.

The desktop secure browser version 12.5 (Windows, MacOS, Linux) is required for all CAASPP and ELPAC computer-based test administration.

The tables that follow list the changes in supported operating systems, browsers, and associated software that are supported for 2020–2021 testing.

Microsoft Windows

Newly Supported for 2020–2021	Support will Expire October 31, 2020
<ul style="list-style-type: none">Windows 10/10 in S mode (Build 2004, when released and tested)Desktop Secure Browser 12.5JAWS 2021	<ul style="list-style-type: none">Firefox 59 and belowChrome 83 and belowDesktop Secure Browser 12.0.xJAWS 18Windows 7Windows 10 Build 1803 and below

Apple MacOS

Newly Supported for 2020–2021	Support will expire October 31, 2020
<ul style="list-style-type: none">• Desktop Secure Browser 12.5• Desktop Secure Browser 13.0 will be available October 31, 2020 and will be required for macOS 10.16	<ul style="list-style-type: none">• macOS X 10.9 and 10.10• Safari 10 and below• Firefox 59 and below• Chrome 83 and below• Desktop Secure Browser 12

Google Chrome OS

Newly Supported for 2020–2021	Support will expire October 31, 2020
<ul style="list-style-type: none">• Chrome OS version 84 and above• Mobile Secure Browser 7.0• Mobile Secure Browser 8.0 (when released in October of 2020)	<ul style="list-style-type: none">• Chrome OS version 83 and below• Mobile Secure Browser 6.0 and below

Linux

Newly Supported for 2020–2021	Support will expire October 31, 2020
<ul style="list-style-type: none">• Fedora 31 (when released and tested)• Ubuntu 22.04	<ul style="list-style-type: none">• Fedora 29 and below• Ubuntu 14.04 and below• Firefox 59 and below• Chrome 83 and below
