Subject: ELPAC--Summative Training Resources on Moodle

Dear Local Educational Agency (LEA) ELPAC Coordinator:

The Moodle Training Site Resources (Moodle) for the 2019 Summative English Language Proficiency Assessments for California (ELPAC) Administration and Scoring Training (AST) will open **Monday, October 15, 2018**. Users who have established a Moodle account for the 2018 Summative or 2018–19 Initial ELPAC do not need to create a new account.

Below are a few details regarding the materials available to prepare for your district training:

Training Binder: The Training Binder is designed to be used with the 2019 Summative ELPAC. Each person attending an AST will receive the Training Binder. This binder will also be available online in Moodle for download or for purchase on a cost recovery basis. (Binders will not contain the calibration pages. Calibration pages will be available to download from the Moodle Training Site.) The order form may be downloaded from the [Regional Trainings](#) web page.

Online Training Certification Information: Trainers who use Moodle will find charts for determining the required training and calibration activities for test examiners in Section 2 of the binder. The charts provide a guide detailing the training and calibration requirements to be certified to administer and score the Speaking test. Individual calibration is required for all test examiners administering Speaking, in addition to attending an in-person training. The official scores for Speaking are the scores given by test examiners and proper training and calibration will ensure reliable results.

Training Presentations: The 2019 Summative ELPAC AST presentations will be available on Moodle in the following formats:

- **Training Presentations:** These are the same presentations used in the AST. They include embedded video and audio. The presentations are for trainers who are hosting an in-person staff training. The presenters' scripts are posted separately in PDF for use with the presentation slides.

- **Training Presentations as Flash Files:** The training presentations (versions without narration) may be downloaded as secure flash files for use during an in-person training where the trainer does not have internet access.

Administration and Scoring Videos (MP4): The video segments are available within each of the presentations and are posted separately as MP4 files in the Downloads course in Moodle.

For further inquiries about the ASTs and available resources, please contact the ELPAC Customer Support Center by phone at 844-782-2714 or by email at ELPAC@ets.org.

Sincerely,

ELPAC Project Team
Educational Testing Service
