What is the ELPAC?

The ELPAC, or English Language Proficiency Assessments for California, is the state’s English language proficiency test for students whose primary language is other than English. The ELPAC helps to identify students who need help in learning English, so they can get the language support they need to do well in school and access the full curriculum. Every year, students who are English learners take the ELPAC to measure their progress in learning English.

The ELPAC is administered at these grades/grade spans:

- Kindergarten
- Grade one (1)
- Grade two (2)
- Grades three through five (3–5)
- Grades six through eight (6–8)
- Grades nine and ten (9–10)
- Grades eleven and twelve (11–12)

All grades/grade spans have test questions in four different domains: Listening, Reading, Writing, and Speaking. The Speaking test questions are administered one-on-one by a Test Examiner at all grades/grade spans. At kindergarten and grade 1, all test questions are administered one-on-one by a Test Examiner. At grades 2–12, Listening, Reading, and Writing sections are administered to groups of students.

What is the purpose of the Training Test?

The Training Test gives students, parents and families, teachers, administrators, and others an opportunity to become familiar with the types of test questions on the ELPAC. When students know what to expect on the test, they will be better prepared to demonstrate their English language proficiency.

The Training Test includes examples of all of the types of questions that may appear in the actual assessment but does not include the full number of questions that appear on the assessment.

The practice questions in this document include directions for the Test Examiner and test content for the student. The SAY symbol is used to indicate directions that the Test Examiner reads aloud to the student. During an actual test administration, the Test Examiner directions are not visible to the student.

Note that the Training Test cannot be used to provide an ELPAC test score. The Training Test can be used to familiarize students with the ELPAC test questions and tasks they will be asked to complete to demonstrate their English language proficiency.

---

1 On the Training Tests, the same test questions may be included at multiple grades/grade spans when the question types are similar across those grades/grade spans. On the actual test, there are no common questions across grades/grade spans.
For Students

Students can use this Training Test to:

■ Become familiar with the question types
■ Learn how to provide their answers

By reviewing the Training Test before the test day, students will understand what they will be asked to do. As a result, students will be able to focus on demonstrating their English language skills on the test day.

For Parents and Families

Parents and families can use this Training Test to:

■ Understand the types of English language skills that students are expected to develop
■ Understand what students need to be able to do on the actual test
■ Understand the types of test questions that contribute to ELPAC test scores

By reviewing the Training Test in advance with their children, parents and families can also help students prepare for the test.

For Teachers

Teachers can use the Training Test to:

■ Understand the types of test questions that appear on the actual test
■ Understand the alignment of the test questions with the 2012 California English Language Development Standards, Kindergarten Through Grade 12 (2012 ELD Standards)
■ Review with students and their families and help them become familiar with the test questions
■ Create similar tasks for instructional purposes, with appropriate support, for their students

Of course, teachers should also have their students practice a variety of exercises that do not appear on the ELPAC to help students develop in all areas described by the 2012 ELD Standards.

For Administrators

Administrators can use the Training Test to:

■ Become familiar with types of test questions
■ Communicate with students, families, and teachers about the skills assessed in the test

Administrators can also use the Training Test as a resource when creating professional development opportunities for educators.

For more information about the ELPAC, please review the Additional Resources section at the end of this Training Test.
Writing Overview

The goal of the Writing domain in an actual test setting is to provide information about an English learner’s ability to write literary and informational texts to present, describe, and explain ideas and information in a range of social and academic contexts.

Each Writing set includes a picture and/or a short written text followed by one to four questions. These sets provide authentic contexts for students to interact via written English and compose literary and informational texts. Grade-level literary and informational writing composed by students in grade 2 are at the letter, word, and sentence level.

All Writing questions are constructed response; that is, students answer the questions in writing. Each of the Writing questions is aligned with one or more of the 2012 ELD Standards. Alignment with the standards is provided with each task type on the pages that follow.

In grade 2, the Writing domain is administered in a group setting. The Test Examiner reads aloud the directions, written texts, and the questions to the students.
**WRITING  Write a Story Together with Scaffolding**

In this task type, students work with the Test Examiner to write a short story. A picture related to the story is included, as well as an introductory sentence and an incomplete sentence. Students write letters, a word, and a complete sentence about the story.

Aligned 2012 ELD Standards: PI.A.2, PI.C.10

We are going to write a story together. The title of the story is “Flying a Kite.”

1

The first letter is missing from the word “Flying.”
Write the first letter of the word “Flying.”

2

The first letter is missing from the word “Kite.”
Write the first letter of the word “Kite.”

3

The first sentence in the story is: Julie is playing outside.
The second sentence should say: It is not a windy day.
The word “day” is missing from the story.
Write the word “day.”

4

Now it is your turn to write the end of the story. How should the story end? Write your sentence.
Julie is playing outside.

It is not a windy _______.

Now I am going to tell you some information about fish. Listen carefully. Then we will write about what we have learned.

Read the text aloud to the student.

Fish are animals that live in water. They do not have legs. Fish use their fins and tails to move through water. Fins help them swim. Fish also have gills. They use their gills to breathe in the water. Fish cannot breathe air the way we do.

Let’s write about what we learned.

The first sentence is: Fish live in water.

I have a sentence to add. I will say the sentence, and you will write the sentence.

Point to the first write-on line.

They use fins to swim.

Repeat the sentence as necessary.

Pause for the students to write.

Let’s read what we have written so far.

Fish live in water.
They use fins to swim.

Now it is your turn to add a sentence. Write your sentence.

Point to the final write-on line.

You can use the words and the pictures to help you write your sentence.

Pause for the student to write.
Fish live in water.
